

Justification of additional eligibility for B.Com (Hons) and B.Com (Prog)

Science Students are not eligible for admission in B.com (H) and B.Com (Prog) as they lack the basics of the various subjects (specially accounting) being taught at an advanced level in these Courses and the College does not have a separate section for non Commerce Students.

For admission in B.com (Hens) maths is a prerequisite as Business Mathematics is a Compulsory paper for all B.com (H) Students and Economics papers to be taught in al-three years are having a Mathematical Orientation.

Justification for having min 65% in Maths.

As Students of B.SC (H) Computer Science Students have to Study 6-9 papers of Mathematics .Some of the papers of Mathematics are advance papers .To qualify in these Mathematics papers, students must have a good foundation of Mathematical concepts and should have capability to understand concepts and their applications.

Justification for additional eligibility for admission tom Eco (Hons)

1. Most of the papers are mathematical and need good maths background and therefore higher maths is necessary for admission to this course.
2. All recommended in Eng medium and most of them are of foreign authors and therefore students find it hard to follow unless they have reasonable understanding of English Language.
