University of Delhi**

Rationale for College specific admission criteria at Gargi College for 2011-12 session

1. Differential cutoff %s across streams: Applicants from Commerce stream within our declared cutoff percentages far outnumber those from Arts.. We also know from experience that women applicants with about 80% or less in commerce stream often prefer to switch over to B.A.(Hons) or B.A.(P) in order to be in a college of choice rather than pursue commerce in less preferred colleges. To some extent this is true of science stream as well. As a result applicants from Arts stream are disadvantaged. Hence our differential cutoff % is in two categories viz, + 7% for more popular courses and + 4% for others.

2 Stream Definition: Cut off %s are based on academic streams (viz, Arts, Commerce and Science). However class XII boards permit combinations that cut across streams. Hence the college has a chart on stream definition which is put up on Notice Board at the time of admissions and from this year onwards will also be included in prospectus and website.

3. Vocational Subjects: Except for B.Com (P) where one commerce-based vocational subject may be included in Best Four, vocational subjects are scoring and irrelevant and therefore not considered for other courses.

4. Negative Weightage: Over many years the college has observed that certain elective subjects offered in class XII Boards are not relevant to the Courses sought in college. They are, in addition, highly scoring. Students with these subjects in best four have an edge over those with subjects directly relevant. Hence the college deducts 4% in the aggregate in cases where one (and only one is permitted) of the subjects listed below is part of best four. This information is provided in the college prospectus and in the website.

Subjects: Engg.Drawing, Dance, Music, Home Sceince, Fine Arts, Agriculture, Physical Education, Fashion Studies, Web & Mass-media Technology.

5. Prerequisite Subjects:

- Mathematics in class XII (not necessarily one of Best Four) is a prerequisite for admissions to B.Com (Hons), B.Com (P) or for choice of Economics or Mathematics in B.A. (P), since there is a heavy mathematical component in the syllabi of these subjects.

- 60% in core or functional English in class XII is a prerequisite for B.A.(Hons) Philosophy, since linguistic competence is crucial to the understanding and expression of this discipline.

- 55% in Sanskrit in class X or 50% in class XII is a prerequisite for B.A.(Hons) Sanskrit for self evident reasons; cut off % is generally pitched at the minimum of 45% for this course.
